110,000 Policuholders in the **Mutual Life** of Canada

### Safety in Numbers

THE Mutual Life of Canada is a company of approximately 110,000 policyholders and bonded together for mutual protection the insurance practically at cost. Surplus profits over and above provision of necessary reserves are divided among participating policyholders.

Last year, the sum of \$2,689,000 was thus tributed to Mutual policyholdersas dividends.

Mutual profit-participating policyholders have three options: (1) They may apply their profits to increasing the face value of their profits to increasing the face value of their policies; (2) They may apply them to reducing premiums; (3) They may take out their profits in cash.

The Mutual Book tells the whole story. Write for it.

HE direful and distressing condition which the caption lines of these news THE direful and distressing condition which the caption lines of these newspaper clippings bring out need never concern you except in sympathy with your less fortunate tellow men if you own your own home. Isn't the relief, the independence, the peace of mind, to say nothing of the actual comfort and pride of possession, worth your attention to the excellent propositions, inducements and convenient methods that are offered below to establish you in your own home?

## The Country Needs Homes

### BUILD TODAY

Nearly every hamlet, every town, every large city is crying for homes—more homes. For the last five years there has been little building—very little—due largely to abnormally high costs of both labor and materials. While food and raiment have shown appreciable decreases, there has been a slight lowering of prizes that diefect our shelter. It's true that many materials that enter into the making of homes have been offered at decreased prices, the bottom has been reached, however. It would be well to take note of the following statement—At no other point in the North American continent can lumber be purchased as cheaply as in Edmonton and District today. Now is the time to Build before prices advance—J. C. Burger, Prominent South Side Lumber Merchant. The Real Estate Merchants that Advertise on this page have desirable House and Lots for sale. It will pay you to get in touch with them—NOW IS THE TIME TO BUILD OR BUY A HOME.
